3.1 Proposed development

This is an application for the erection of rear return side infill single storey extension to a single family dwelling (householder application)

3.2 Site and Surroundings

The site is a two-storey terraced dwelling located on the western side of Inderwick Road. The surrounding area is predominantly residential, and is made up of similar terraced dwellings.

3.3 Relevant Planning and Enforcement history

No relevant history.

4. CONSULTATION RESPONSE

4.1 No consultation required.

5. LOCAL REPRESENTATIONS

5.1 The application has been publicised by way of 19 letters.

5.2 Nor responses were received.

6. MATERIAL PLANNING CONSIDERATIONS

The main planning issues raised by the proposed development are:

1. The impact of the proposed development on the character and appearance of the area
2. The impact on the amenity of adjoining occupiers

6.1 Character and appearance of the area

SPG1a states that extensions or alterations to buildings should be subordinate in scale to the original building and should respect its architectural character. The development should not dominate existing features important to the building.

The proposal is considered to be acceptable for the following reasons:

- The proposal would involve a small single storey infill extension and would not remove any original features at ground floor level
- The proposed extension would be single storey with a small pitched roof and is considered to be of an appropriate design to ensure it would appear subservient to the existing building
- Materials will be conditioned to match the existing building

Overall, and for the reasons mentioned above, the proposal is considered to be acceptable and consistent with the relevant policies, and would not harm the appearance of the building, terrace or area.

6.2 Impact on the amenity of adjoining occupiers

All development proposals are expected to maintain and respect the living conditions currently enjoyed occupants of adjacent residential properties as set out within saved UDP 2006 Policy UD3 and concurrent London Plan 2011 Policy 7.6.

The proposal would extend at ground level from the rear of the property, infilling the gap between the boundary and the outrigger in the site.

With regards to the southern neighbour (no. 31), the proposal is not considered cause harm with regards to loss of daylight/sunlight, outlook, increased sense of enclosure for the following reasons:

- The proposed extension would extend along the boundary, and at the boundary the height of the extension has been kept to a minimum, limiting the impact on this property.
- The levels between the properties changes at this point, with number 31 being higher than the subject site. As such, the height of the proposal at the boundary would be 1.93m, which is considered to limit any enclosure issues on number 31.
- There are no habitable room windows in the neighbouring property facing the extension.
- The proposal has no fenestration in the flank walls and thus would not harm the privacy of this neighbour

There would be no impact on number 35 to the north.

Overall, the proposal is considered to be acceptable and would not harm the amenities of surrounding neighbours with regards to loss of daylight/sunlight, outlook or increased sense of enclosure and would be in general accordance with saved UDP 2006 Policy UD3 and concurrent London Plan 2011 Policy 7.6.

6.3 Conclusions

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above. The details of the decision are set out in the RECOMMENDATION.

7. CIL APPLICABLE

The increase in internal floor area would not exceed 100sqm and therefore the proposal is not liable for Haringey's CIL charge or the Major's CIL charge.
