Importance: High

To whom it may concern,

Telecommunications installation at Land Adjacent to Aylmer Road, Highgate, N2 0PL AND Land at Archway Road, Adjacent to 144-152 Archway Road, N6 5BB
At both sites: Replacement of 12.5m telecommunications pole to one of 15m, and the installation of 1 new cabinet

Thank you for both letters seeking comment from TfL, I apologise for my late response on this.

The proposed sites are situated on Aylmer Road and Archway Road, both these roads form part of the Transport for London Road Network (TLRN). TfL is the highway authority for the TLRN and therefore concerned about any proposal which may affect the safety or performance of these roads.

In both cases, TfL is aware of the amount of street clutter that already exists at these locations and is therefore concerned about an increase in this.

TfL requests that the developer has explored, and can provide evidence of rationalising the phone cabinets. Either combining cabinets or removing them where possible. This would help to mitigate the issue of street clutter.

Kind regards,
