Dear Emma Williamson,

Re:HGY/2014/3351
We would like to object to the planned proposal of the erection of a single story extension on the back of 5 Sandford Avenue.
The size of the proposed extension will completely overshadow the back of our house and garden that is quite narrow and dark. We already have a two-storey side wall of the neighbours house (Number 1 Sandford Ave) on the other side of our property. If this extension is approved we will be constricted between two walls resulting in us being confined in a concrete jungle with even less light coming into our kitchen and back room. We feel it will make the rooms so dark that we will have to use electric lights in the day too.
We would like you to consider the Right to Light law which states ¿The windows on my property have existed for more than 20 years and have received over 20 years of unobstructed daylight, it automatically earns itself a Right of Light.¿.
The size of this extension will not only decrease our light by 50% but effect our quality of life.

Yours Sincerely,
Mr K.K Raithatha
