Re: Impact Statement for 67a Weston Park N8 9TA

The re-furbishment of this property has intentionally been sympathetic and 'in keeping' with the original Victoria aesthetic..

To the rear new bi-fold timber doors have been fitted which has led to the overhaul of the rear elevation. The existing brickwork has been sensitively cleaned and replaced where necessary. The bricks have been re-pointed.

This essential addition to the property will allow this small flat to function more effectively as a family dwelling, containing a growing family.
