M2M Security Door Range

- **Unbeatable Selection of Sizes and Options**
  Every M2M door is individually designed and made to order with rapid turnaround guaranteed.
- **Stronger than Competitor Doors**
  The door hinge areas are reinforced with unique 'Hinge Chassis Systems' (patent pending). Furthermore all M2M doors have a minimum of 7 heavy duty dog bolts.
- **Quick and Easy to Install**
  The revolutionary ' Fast Fit Frame' option greatly reduces fitting times.

M2M+ available as a single, leaf and half and double door with a very large selection of options and extras so each door can be tailor-made to customer requirements.

M2M1 an outward opening single door design certified to LPS 1175 Security Rating 1

SPECIFICATION
