Submission: Objection
Comments: As I own the property adjacent to that of the proposed planning application, I have several objections and issues I would like to raise.

1) The proposed extension will make my front garden much darker and it will obviously reduce the amount of light reaching the lower rooms. This means a darker living environment for me and my family. Not pleasant and frankly, unfair. All the more so as the property is rented to multiple tenants, so is a profit making venture as opposed to a home.

2)Concern over the sheer number of tenants and the fact that it seems to be a high turn over multiple occupancy. Does not help to add to a strong community environment/spirit.

3)An appropriate housing solution needs to be found for the dust bins. Currently, the dust bins of 1A sit outside on the street blocking the foot path. This is not acceptable as well as not allowed according to local bylaw. Furthermore, in high winds, the bins have previously hit my parked vehicle causing minor cosmetic damage. The damage was very minor so I took no further action but this is not acceptable. This brings me to my next point;

4)As the owner of 1A, Mr Haberis has not right of access to the alley that runs beside MY property. At one point, he tried to use this, private alley, to store the previously mentioned dust bins. When challenged, Mr Haberis did move the bins although he tried to argue that he did have access. Again, this alley is private property, he has no right of access. Further infringements will be treated as trespass.

For these reasons, I object to this planning application.
