Submission: Objection
Comments: I have previously submitted an objection but it appears not to have registered, so apologies if this is duplicated. I object to this application on the grounds that it will significantly alter the character of the Street. The buildings just start to become semi or fully detached at that point, and joining them will significantly alter this. In addition, the view to the gardens behind and openness will be impacted. I do not think this is appropriate for a conservation area. The Environmental report also highlights a number of issues which I agree with in objection of the stated plans. I do not feel in the context the use of the land should change. The significant disturbance the building would cause is another concern, although not my primary one. Regards.
