6 MATERIAL PLANNING CONSIDERATIONS

6.1 The main planning issues raised by the proposed development are:

1. The impact of the proposed development on the character and appearance of the conservation area
2. The impact on the amenity of adjoining occupiers

6.2 Character and appearance of the conservation area

Local Plan Policy SP11 'Design' states that all new development should enhance and enrich Haringey's built environment and create places and buildings that are high quality, attractive, sustainable, safe and easy to use. To achieve this all development shall be of the highest standard of design that respects its local context and character and historic significance, to contribute to the creation and enhancement of Haringey's sense of place and identity. With regard to development within Conservation Areas, The London Plan 2011 Policy 7.8 'Heritage Assets and Archaeology' states that development affecting heritage assets and their settings should conserve their significance, by being sympathetic to their form, scale, materials and architectural detail. Similarly Local Plan Policy SP12 seeks to ensure the conservation of heritage assets, their setting, and the wider historic environment. Furthermore Saved UDP Policy CSV5 'alterations and extension in conservation areas' states that the Council will require that alterations or extensions to building in Conservation Areas preserve or enhance the character of the Conservation Area.

The proposal would be to the rear of the site and small scale so is considered to preserve the character and appearance of the Conservation Area.

6.3 Impact on the amenity of adjoining occupiers

The London Plan 2011 Policy 7.6 Architecture states that development must not cause unacceptable harm to the amenity of surrounding land and buildings. Saved Policy UD3 also requires development not to have a significant adverse impact on residential amenity in terms of loss of daylight, or sunlight, privacy overlooking and aspect.

The air vent would be small scale and would not impact on neighbouring amenity.

6.4 Conclusions

The proposed development, would preserve the character and appearance of the conservation area and would cause no significant harm to amenity in compliance with Policies 7.8 of the London Plan and Haringey Local Plan Policies SP11 'Design' and SP12 'Conservation' and Saved UDP Policies CSV5 and UD3 'General Principles'.

All other relevant policies and considerations, including equalities, have been taken into account. Planning permission should be granted for the reasons set out above. The details of the decision are set out in the RECOMMENDATION

7. CIL APPLICABLE

There would be no increase in internal floor area and therefore the proposal is not liable for the Major or Haringey's CIL charge.

8. RECOMMENDATION
