Submission: Objection
Comments: We do not approve of this application. The addition of a dormer etc is acceptable but the house is one of four in a block and the plans will materially alter the appearance and structure of the block. We feel that as a conservation area and one protected by an article 4 direction this should be refused. The rear of the house is overlooked by at least 10 houses and the appearance of the bock will be altered. We worry that a basement will cause structural defects to adjacent properties whose foundations are very limited. Please refuse this application other than the first floor plans.
