Submission: Objection
Comments: I would ask that before permission is or is not granted by council to allow No. 22 Coleraine Road to build 2.9 metre extension from their bay window, that would be only 55cm from, and directly in front of, our bay window, that you read this "Department for Communities and Local Government" paper re "Right to Light" Law.

I would ask you open link below, and read page 7, "Proposals for Change" No.19, where it says, "....existing protections under other regimes (building regulations, the party wall act or the 'right to light', for example) will continue to apply.", even for permitted developments.
