Contact: Rhoda Hayashi
Tel: 5572

Site: 81 Turnpike Lane, N8 0DY

Proposa Change of use from A1 and A2

The application site falls within an area that has a high public transport accessibility level of 6 and is within walking distance of Turnpike Lane underground station and bus interchange. It is therefore likely that the majority of staff and patrons would use sustainable transport for journeys to and from the site.

The residential streets within the immediate vicinity of the site are covered by the Wood Green (inner) and Wood Green (outer) controlled parking zones, which operate from Monday to Sunday 8:00am – 10:00pm and Monday to Saturday 8:00am 10:00pm and offer a good level of on-street parking control. Prospective patrons will be able to benefit from the Turnpike Lane “Stop and shop” on-street parking facility for short term parking.

The application is unlikely to result in any significant increase in traffic generation or parking demand. Therefore, the highway and transportation authority do not wish to raise any objections.
