Submission: Objection
Comments: The building will be too dominant and will destroy London's landscape by have another high rise building. Residents will also be effected by reduced sunlight to their property. I think there are other places to building in Tottenham to make the entire area grow.
As a resident at Hale Village, resources are been stretched to meet the demands of current residents. if we could have a doctors surgery, dentist, grocery store etc.. this will be helpful to everyone currently working or living here
