Submission: Neither
Comments: I do not object to this revised planning application HGY/2015/0917 for front roof lights in the form initially posted on the Council's website. It removes the proposed dormer window on the front roof slope of the property that residents and others objected to, myself included, in the previous application (HGY/2015/0057) that the Council rejected. If HGY/2015/0917 is amended I trust that residents will be given further opportunity to comment.

I have noticed that as with previous planning applications in this street, no site notices were erected by the Council for either HGY/2015/0917 or HGY/2015/0057. I think that in future site notices should be posted in order to give residents a fair opportunity to comment upon planning applications within our Conservation Area and community. I had thought that it was a statutory obligation for the Council to do this.
