Proposa Approval of details pursuant to condition 6 (construction management plan incorporating construction logistics plan) attached to planning permission HGY/2014/1818

The applicants agent has submitted an amended Construction Management/Logistics Plan, which confirms that the demolition works are scheduled to take place over a 10 day period and the new position of the hoarding will allow a residual footway width of 1.2m in line with the minimum distance requirements stipulated within the associated hoarding licence already obtained for this project.

The applicants have not put forward our preferred option to direct pedestrians onto a segregated section of carriageway. However, given that the hoarding will be in place for a very limited period of time and that the minimum requirement of 1.2m has been met, it would be difficult for the Highway and transportation authority to substantiate our objection.

Therefore the highway and transportation authority does not wish to object to the

For Head of

approval of Condition 6 attached to Planning permission HGY/2014/1818.
