Submission: Objection
Comments: As a local councillor, I am supporting the concerns raised by residents in Woodside Road, in particular those at no 13 about the impact this proposed house will have on their amenity. It seems to mean that their garden will be badly overlooked from the proposed new house and that their view and light will be adversely affected. I would also comment that the proposed house infills in a very obtrusive way a small space and this will have an impact on all the surrounding houses. I am concerned about the over development of the site and therefore object to the application.
