Submission: Objection
Comments: I would like to add further objections to those submitted by Cllr Ann Waters. The first floor window should be the same scale as adjoining properties with no balcony. The inclusion of of these two features clearly show that this development has not taken into account the character of existing properties surrounding the plot and the impact these features alone will have on the neighbours. As the plot allows for a garden area why is it necessary for this stage like platform and glaringly large window areas to the rear.
