GENERAL NOTES:
Any dimensions shown are indicative only and are subject to verification on site. The contractor to set out, check and co-ordinate all dimensions on site during the course of the works and prior to setting out on site. This drawing to be read in conjunction with all other Architect's and Engineer's drawings, Structural Engineer's calculations and any other relevant consultant's information.
Prior to commencement or building works the contractor or homeowner is responsible and should:-
1. Ensure that all working drawings and calculations are completed, approved by Building Control or Planning Departments & that they are the current revised drawings before any works start on site.
2. Inform the Building control department that the works are about to commence on site after receiving an approved decision from planning / building control in writing for your proposed works.
3. Verify boundary lines & ground conditions including checking positions and new connections of all gas, water, electric, soil & vent pipes, drains and rainwater pipes. The client or their appointed Building Owner is responsible for establishing party boundary lines as Portico Design are not responsible for checking land ownership even if drawings have been approved by the planning and building control departments. Party wall surveyor may be required if works affect party boundaries.
4. Portico Design are not responsible for builders choosing design methods from proposed works. The client is responsible for works being carried out on a building notice. No project should start without notice.
5. Owner is responsible for purchasing additional materials and covering extra engineering design costs for any additional structural design change on site from the start to end of building works requested by building control or any other third party's instruction during building works.
6. Request a copy of the Party Wall Award where works affect party wall or involve excavations within 3 metres of adjoining buildings or building over a public sewer. (Clients responsibility)
7. Where works involve demolition to ensure that all elements of the building and adjoining structures are accounted for and that all necessary propping and temporary supports are in place. "do not scale off this drawing as the existing may be off"
8. Works carried out under a building notice or prior to approval of drawings are at the owners risk. Portico Design will not be responsible for any costs incurred should the owner commence Builders building without plans being approved by planning & building control departments are fully responsible for the likelihood of condemned works.
9. Any discrepancies, either between written and site dimensions or between this drawing and other consultant's or suppliers drawings, should be brought to the immediate attention of Portico Design before any works start on site. Commencement of any works will imply acceptance. This includes types of materials if materials shown on drawings do not match which is an site then this will need to be brought to Portico Design attention straight away before commencement of any works. Any changes to the approved drawings will need to be remarked and approved by building control or the engineer before works start on site.
10. All of Portico Design structural designs are subject to footings being 1m deep, if however the existing foundation is different a trial-hole will need to be dug to establish the existing foundation type and building control will need to advise on a different foundation design if necessary. If the existing foundation is found to be shallow then this will need to be designed by an engineer with an additional cost being implemented.
11. All wall's which have been designed to be removed on plans are to be checked on site by building control inspector/builder for load bearing or non-load bearing status before purchase of steel's. If non-load bearing then steel's should not be ordered. No refund or claim can be given against Portico Design on the design/materials charged for these steel's.
12. Structural calculations are subject to checking by builder, Thames water & building control, four and various connections should be approved by thames water before works commence.

OTHER NOTES:
Any new roof, wall and wall finishes on this drawing to match existing materials. All new proposed skylights shown on this drawing will be designed not protrude more than 150mm from the existing roof profile. All new proposed windows shown on this drawing which overlook other property's are designed to be non opening and of obscure glazing. For a permitted development loft design the dormer designed on this drawing is set back from the eaves by 300mm, this note is a confirmation that it is designed this way. All works to be carried out in accordance to the approved building regulations drawings. Any variations to comply with current building regulations.
An inspection of the underground drainage was not possible on survey. Contractor should check drainage runs and invert levels prior to starting work on site and notify building control of results. ALL DRAINAGE SHOWN IS ASSUMED AND MUST BE VERIFIED BY CONTRACTOR.

TERMS – this drawing has been created by Portico Design ltd for the "client" only, a bound contract has been made between both party's in which a signed contract for creation of works involving person-working hours for this drawing has been made, as nature will be allowed or claim made of stealing and any other drawing's relating to this project for whatever reason can be taken by any other party's, if this is found to be the case then Portico Design ltd will take legal action against the party or use of these works, any company, department or person that infringes these rights will be subject to legal compensation brought against them. client accepting these terms has agreed on all the above by signing contract between both party's and understands that no refunds can be given.

ALL DRAWING CONTENT INCLUDING NOTES IS BOND TO SIGNED AGREED CONTRACT BETWEEN CLIENT & PORTICO DESIGN LTD
