GENERAL NOTES:
Any dimensions shown are indicative only and are subject to verification on site. The contractor to set out, and be responsible for all dimensions on site during the course of the works and prior to setting out any site. This drawing to be read in conjunction with all other Architect's and Engineer's drawings, Structural Engineers calculations and any specialist supplier's drawings.
It is the responsibility of the client to ensure that the property the homeowner is responsible and should:-
1.Ensure that all working drawings and calculations are completed, approved by Building Control or Planning Departments & that they are the current revised drawings before any works start on site.
2.Inform the Building control department that the works are about to commence on site after receiving an approved decision from planning / building control in writing for your proposed works.
3.Verify boundary lines & ground conditions including checking positions and new connections of all gas; electrical, water & other services drainage act, within the site prior to the commencement of excavations. Party Wall Act 1996 - Adjoining owners rights. Please note that it is the responsibility of the owner checking land ownership even if drawings have been approved by the planning and building control departments. If uncertain a land search should be carried out by the homeowner/contractor.
4.Portico Design are not responsible for builders changing design methods from proposed works. The client is responsible for the works being carried out are in building control. We project ensure that without codes.
5.Site inspection by building control officer required by law on various occasions. Please contact them for any additional structural design change on site from the start to end of building works requested by building control or any other third party's instruction during building works.
6.Request a copy of the Party Wall Award where works affect party wall or involve excavations within 3 meters of adjoining buildings or building over a public sewer. (clients responsibility)
7. Where works involve demolition to ensure that all elements of the building and adjoining structures are secured and free of hazard and adequate temporary supports are put in place before demolition commences. Safety is paramount.
8. Works carried out under a building notice or prior to approval of drawings are at the contractors/owners risk. (at Portico Design drawings must be approved before works commence). Builders building without plans being approved by planning & building control/approved inspector will be liable to prosecution & will be required to pay fines.
9. Any discrepancies found between the dimensions on site & dimensions on the drawing and other consultant's or suppliers drawings, should be brought to the immediate attention of Portico Design before executing the structural, drainage, mechanical and electrical works. Any discrepancies found between the drawings and the actual conditions as existing on site these this will need to be brought to Portico Design attention straight away before works commence and purchase of materials be made as an alternative design can be methodised and approved by building control or the engineer before works can commence.
10.All of Portico Design structural designs are subject to hastings before ten days, if discrepancies are found between the design & the actual site, it will be the duty of the asbotish the existing foundation type and building control will need to advise on a different method of construction, if requested by building control eigher a raft or piled foundation, this will be the responsibility for the client to pay for this, in addition to any extra costs.
11.All existing walls to be supported by temporary propping until new RSJ's are installed which is to be checked on site by building control inspector/builder for load bearing or non-load bearing status before purchase of steel/s. If non-load bearing then steel's should not be ordered. No refund or claim can be given against Portico Design on the design/materials charged for these steel/s.

OTHER NOTES:
All new proposed roof and wall finishes on this drawing to match existing materials. All new proposed skylights shown on this drawing will be designed not perhaps more than 150mm from the existing roof profile. All new proposed windows shown on this drawing which overlook other property are designed to be non opening and of obscure glass. Where the new proposed windows are non opening and are required to be escape windows due to the sill is the stairs by 300mm, this note is a confirmation that it is designed this way. All works to be carried out in accordance with the latest appropriate codes of practice and to comply with current building regulations.

An inspection of the underground drainage was not possible on survey. Contractor should check drainage runs and invert levels prior to starting work on site and notify building control of results. ALL DRAINAGE SHOWN IS ASSUMED AND MUST BE VERIFIED BY CONTRACTOR.

TERMS - this drawing has been created by Portico Design ltd for the "client" only, a bound contract has been made between Portico Design ltd & the client for the production of these drawings. Portico Design ltd retains full copyright of this material and no refund will be allowed or claim made of drawing and any other drawing/s relating to this project for whatever reason can be made against Portico Design.
