Dear Ms Williamson, Ref HGY

I object to the planning application on the retention of H.MC use for 5 rooms in 132 A, 132 and 134 Arcadian Gardens.

I object for the following reasons;

a) they have a negative effect on the area i.e a cluster of 3 houses with massive dormers coming from the eves.

b) They affect my privacy as they overshadow + overlook my garden.

c) There is a greater level of noise due to overcrowding previously 2 residential 2 story houses existed. He then built over the garage space + defied ~~to~~ planning laws significantly adding great height to 3 buildings.

d) He has created overcrowding in the area + greater noise and disturbance resulting from use

e) In addition there are people residing in dwellings in the back gardens bordering my property. This is making the area a ghetto and will have a devaluationary effect on my property.

f) The character and appearance of the area has been negatively affected with badly designed enormous 3 storey buildings overshadowing our gardens + affecting privacy.

g) Finally I object due to impact these properties through overcrowding will have on the effect of local amenities — more rubbish floating around the area (bins never closed) and on security as unable to know neighbours as so many and traffic has increased.

Yours sincerely
