Subject: Planning Application HGY/2015/3110

To whom it may concern:

I wish to register a comment on Planning Application HGY/2015/3110. My attempts to do so via the haringey.gov.uk site were frustrated by repeated reports of an internal error, so I am uncertain whether you have in fact received my comment. It is as follows:

The attached plans do not make it clear to me what the height and extent of the alterations to the rear roof will be. I am concerned about both the possibility of loss of light and the effect of the proposed alterations upon the architectural character of the street. Pending clarification on these points, I do not support this planning application.

Please confirm that you have received this. Thank you.
