6 Hargrave Avenue
South Tottenham.
N15 6HD. 23/7/15

Dear Sir.

Town & Country Planning Act 1990
4, Hargrave Ave ref HGY/2015/2010
Erection additional storey Type 3

I write with reference to your letter 14 July regarding the above.

The terrace houses at the upper end of Hargrave is near the highest built over 100 years ago on London Clay, and have extremely shallow foundations, it seems obvious that the impact of all these massive developments will cause structural damage and problems to all other properties especially these on either side, if not now in the near future.

Having already allowed so many extensions the character and appearance of the area has changed dramatically. It seems unlikely that you have considered that TERRACED houses built for probably 4/5 people are now housing anything from 8/12 people, this will of course result in alot more noise, disturbance etc. These are TERRACE HOUSES not semi, or detated properties.

In view of the above I consider that the erection of additional storey type three is not suitable for properties in Hargrave Avenue

Yours faithfully
Hazel Hardman.
H. HARDMAN.
