Dear Valerie,

I am writing in response to the letter I received regarding planning application for 60 Perth Road, N22.

I am the owner of the property at 58 and strongly object to the property at 60 being converted to flats.

A number of properties on Perth Road have already been converted in to flats or turned into rented accommodation. More consideration needs to be given to homeowners who actually live in their properties.

I am surprised and concerned that have only just received the consultation letter but the work at number 60 is almost complete. This needs to be looked into.

I also understand in the application there was a request to build an outdoor bicycle store. However, the building is very large and am concerned that it would be used for other purposes.

I would most appreciate the application be denied.

With kindest regards
Sonia Parsons
