Site: 72 Creighton Avenue, N10 1NT

Proposa Creation of a carriage driveway (householder application)

In principle we have no objection to the creation of an additional crossover as Creighton Avenue has not been identified as an area suffering from high car parking pressures, however the layout of the proposed crossover is unacceptable as the crossover width should be no more than 3.2 metres in wide in addition the location of the proposed crossovers will impact on the tree and the gully fronting the site which are not included on the proposed drawing.
Consequently the transportation and highways authority object to this crossover

For Head of

application as the proposed layout is unacceptable.
