126 Craven Park Road
London N15 6AB

17 February 2016

Mr. Stephen Kelly
Assistant Director Planning Services
Haringey London
6th Floor, River Park House
225 High Road, Wood Green
London N22 8HQ

cc: Ms Emma Williamson
Head of Development Management
Planning Services (with enc.)

Dear Mr. Kelly.

Re 124 Craven Park Road, N15 6AB
Erection of additional storey "Type 3" (householder application)

Dear Mr. Kelly,

In response to your office letter of 11 February 2016, I sent an email to the case officer Ms Sarah Madondo, (copy enclosed) for your information. I hope that you will give this email your consideration and assist me and the householder of No.124 Craven Park Road, in any way possible and in your capacity as Assistant Director Planning Services.

Thank you.

Yours truly,

Mrs. L Joseph

to Sarah.Madondo, Emma.Williamson

Dear Sarah, this is to confirm our telephone conversation earlier this morning regarding your letter dated 11/02/16 - reference as above - the erection of additional storey "Type 3" (householder application). As I explained to you the applicant, Mr. Joel Stern, has blatantly disregarded all the planning permission and continues to complete the building work for which permission is pending. He has erected a 6 metre party wall - applied for 3 metres in length but erected 6 metres in length with breeze blocks instead of red bricks which he promised he would use. He has covered the roof of this wall up to 3 metres but has left the side walls standing, which I believe he plans to cover once your inspector have approved the wall. Or perhaps, he has other plans for it. Your inspector have been calling intermittently, and saying "you have no planning permission stop the work". The work is stopped for a couple of days and then continued completion.

The loft extension was also started and completed without prior permission, the extension has gone over to the side of my house (126 Craven Park Road) and over to the side of 122 Craven Park Road. No action has been taken by Haringey Council.

Two weeks ago they dismantled the roof and side wall of the bathroom which adjacent to my bathroom, erected a flat roof, and built a room on top of this roof. If the new application is for this additional storey, they have completed t room without waiting for planning permission. What, if anything, are you going to do about this?

In the process of constructing the party wall they have caused damage to my house as well as to 122 Craven Park Road, which still remains unrepaired - 8 months. During construction of the loft extension, they did not take any precautions to cover the scaffolding at the back resulting in huge bricks falling on to my side of the house, missing me by inches. Had it hit me I would have had to be hospitalised or may even have died. Your inspectors paid no regard to health and safety and permitted them to continue .

The workers have no protective clothing, no helmets, and have been seen on occasion using the back of the garden for urinating purposes. Where is Health & Safety.

The have had several skips since the month of August because of the deep excavation work they have been doing, and even applied for licences for the skips in the name of 126 Craven Park (my house), without my permission or knowledge. Your office should be able to confirm this because when it came my attention in January this year, I sent the Skip Licencing department and the very kindly had the skip removed.

With all the work that they have done and propose to do, I fear for the structur of our homes. I do not believe that the walls will withstand the strain of the works. Also we will have no privacy in our gardens. I request you most sincerely, to please send inspectors to view the work that has been done and being done, to ensure the safety of 122 and 126 Cr. Park Road. Please consider the applications very carefully and take into account all of the above look forward with interest to your response. Kind regards

Mrs. Lily Joseph
