PE ITION

To: Haringey Council, Planning and Building Control, 6th Floor, River Park [illegible] Road, Wood Green, London, N22 6HQ

WE, the undersigned, strongly request that Haringey Council Planning Department does not give planning permission to the proposed development at 329 St Anns Road, N15 3TL outlined in planning application HGY/2015/3330 and offer the following objections for consideration in their decision:

1. The proposed development is a major one which will impose unacceptably high levels of disturbance to residents in the locality in terms of noise, dust and dirt for a lengthy period of time.
2. The implied addition of heavy vehicles for the development of this site and for the delivery of the required building materials will add to parking pressures which are already challenging in this busy area, on St Anns Road and in the roads adjacent to the site – Kimberley Gardens, Cleveland Gardens and the other roads surrounding them.
3. The increased loading of heavy vehicles to St Anns Road in particular and the roads that surround the site poses road safety hazard to residents and visitors to the area, and especially to children and their families travelling to and from the three local primary schools. We draw the Council's attention to the fact that St Anns Road has been the scene of many accidents in the area over the past ten years.
4. The proposed development of an elevated roof in the loft space of the building will present an exterior which is totally out of character with the rest of the streetspace in the locality, which is typical of a London Victorian residential area.
