PICTUREHOUSE CINEMAS, TOTTENHAM LANE, CROUCH END, N8 9BY

Results of On-Street Parking Survey

1.0 Introduction

1.1 Planning permission has been granted for a new cinema at 165 Tottenham Lane, Crouch End within the London Borough of Haringey (reference HGY/2013/1984). Condition 8 of the above planning consent requires the applicant to provide the Local Planning Authority a parking review plan which includes parking surveys within 600 metres of the site. Parking surveys should be submitted 3 months prior to occupation and every 6 months thereafter for a period of 1 year. The reason for this is to monitor the impact of the development on the transportation and highway network and its impact on residential amenity in the area surrounding the site.

1.2 The scope and times of the parking survey were discussed and agreed with Haringey Council and the first round of surveys was undertaken in October 2015.

1.3 This report has been prepared to set out the agreement reached with Haringey Council and summarise the results of the baseline surveys.

2.0 Extent of Survey and Methodology

2.1 The survey extended to cover all roads within a 600 metre walking distance of the site as indicated on the drawing included at Appendix A.

2.2 The survey was undertaken using the Lambeth Parking Survey Methodology with hourly beats undertaken from 18:00 hours to 22:00 hours on Friday 24 October 2015 and at 14:30 hours and hourly from 18:00 hours to 22:00 hours on Saturday 25 October 2015.

2.3 The survey established the parking capacity of each street, including details of any restrictions, and how many of the spaces were occupied so that the 'parking stress' (percentage occupied) could be determined.

3.0 Survey Results

3.1 Full results of the initial surveys are included at Appendix B, and are summarised below. The results provide the baseline against which the results of future surveys to be carried out 6 and 12 months after the cinema has opened will be compared.

3.2 The survey recorded a total of 2727 parking spaces available within the study area, comprised as follows:

2199	Daytime Permit Holders Only (Mon - Fri)
219	Daytime Permit Holders Only or Short Term Metered Parking (Mon - Fri)
106	Short Term Daytime Metered Parking (Mon - Sat)
20	Long Term Daytime Metered Parking (Mon - Sat)
183	Single Yellow (No Parking Mon - Sat 8am - 6.30pm)
2727	**Total**

3.3 The results of the survey on the Friday are summarised in Table 1 below.

Table 1: Parking Survey Results Summary – Friday 24 October 2015

Time	Capacity (Spaces)	Occupied (Spaces)	Unoccupied (Spaces)	Parking Stress
18:00	2727	1737	990	64%
19:00	2727	1745	982	64%
20:00	2727	1767	960	65%
21:00	2727	1784	943	64%
22:00	2727	1811	916	66%

3.4 The results of the survey on the Saturday are summarised in Table 2 below.

Table 2: Parking Survey Results Summary – Saturday 25 October 2015

Time	Capacity (Spaces)	Occupied (Spaces)	Unoccupied (Spaces)	Parking Stress
14:30	2727	1858	869	68%
18:00	2727	1845	882	68%
19:00	2727	1871	856	69%
20:00	2727	1869	858	69%
21:00	2727	1862	865	68%
22:00	2727	1858	869	68%

3.5 The results reveal that levels of on-street parking stress were consistently between 64% and 66% on the Friday and between 68% and 69% on the Saturday.

Appendix A

Extent of Survey

Extent of Parking Survey

0m 200m 400m 600m

Appendix B

Survey Results

Tottenham Lane, Crouch End Parking Beat Survey

Where lengthwise parking is available along the kerbside 1 space = 5m long.

Parking capacity has been calculated by measuring each length of road between obstructions (e.g. crossovers, kerb build-outs, illegal parking, etc) then converted into parking spaces by rounding down to the nearest 5m and dividing the length by 5.

Crosswise orientated bays have been counted separately.

Any cars parked illegally or on crossovers have been included as part of the stress calculation for the parking classification category that they are closest to. Any illegal or informal parking has also been noted separately in the last table. Skips or any other obstruction in a parking space have not been included in the stress calculation but have been noted separately in the last table (if observed).

Area Surveyed - 600m walking distance from 163 Tottenham Lane, Crouch End

Date	Time	Beat Freq.
Friday 23 October 2015	18:00-22:00	60 Mins
Saturday 24th October 2015	14:30	1 Snapshot
Saturday 24th October 2015	18:00-22:00	60 Mins

NB: For full parking restriction details, see 'Capacity Measurements' tab.
