Comments: People would like to state that this will affect the residents of Clissold Close, a Supported Accommodation estate.
It will shut the light off from these residents garden and windows, possibly invade their privacy, the work carried out will create a lot of noise and once completed the new residents will most likely create unwanted extra noise. It will affect the character of Clissold Close, a small and friendly estate tucked away on a main rd. A lot of the residents are elderly and unwell, this will cause unwanted disturbances for these people.
