Subject: Re: Incomplete Application Letter - App ref VOID/2016/1702

We decided to just go with a black slate roof, as it seems most in keeping and "neutral" with the surrounding buildings.
I've been working with the local planning officer mr Russell Quick.
He seems happy with this choice, and suggested I send you a photo of similar.

Regarding the other conditions.
-Mr quick has accepted the location plan I sent him for the bins.

-we decided to hold off on the solar panels, as we are struggling to find a design that is aesthetically pleasing enough...can we put that idea on hold for now?
