GENERAL NOTES:
Any dimensions shown are indicative only and are subject to verification on site. The contractor to set out, check and co-ordinate all dimensions on site during the course of the works and prior to setting out on site. This drawing to be read in conjunction with all other Architect's and Engineer's drawings, Structural Engineers calculations and any specialist supplier's drawings.
1. Prior to commencement of the Building Works, the homeowner is responsible and should:–
1.1.ensure that all working drawings and calculations are completed, approved by Building Control or, Planning Departments & that they are the current revised drawings before any works start on site.
2.Inform the Building control department that the works are about to commence on site after receiving an approved decision from planning / building control in writing for your proposed works.
3.Verify boundaries prior to groundworks commencing, failure to do so may result in demolition & rebuilding to gain correct positioning, this can commencement of excavations. Owner is responsible for establishing exact boundary lines as Portico Design are not responsible for checking land ownership even if drawings have been approved by the planning and building control departments. If uncertain a land search should be carried out by the homeowner/contractor.
4.Ensure adequate temporary propping is provided to support adjacent structures during works. The client is responsible for works being carried out on a building notice, No project should start without notice.
5.Owner is responsible for purchasing additional materials and covering extra engineering design costs for any additional structural design change on site from the start to end of building works requested by building control or any other third party's instruction during building works.
6.Request a copy of the Party Wall Award where works affect party wall or involve excavations within 3 meters of adjoining buildings or building over a public sewer. (clients responsibility)
7. Where works involve demolition to ensure that all elements of the building and adjoining structures are accounted for and that all necessary propping and temporary supports are in place. "do not works off this drawing as the scaling may be off"
8. Works carried out under a building notice or prior to approval of drawings are at the contractors/owners risk. Set Portico Design drawings must be approved before works commence. Portico Design will not be responsible for any unauthorised works carried out. Local authority control departments are fully responsible for the likelihood of considered works.
9. Any discrepancies, either between written and site dimensions or between this drawing and other consultant's or suppliers drawings, should be brought to the immediate attention of Portico Design before executing the structural, drainage, mechanical and electrical works. Portico Design will not be responsible for any discrepancies found on site after works start on site then title will need to be brought to Portico Design attention straight away before works commence and purchase of materials be made so an alternative design can be prepared and approved by building control or client before works start on commencement.
10. All of Portico Design drawings are protected by copyright law, by hand or electronic means, however the working procedure is different so we will need to be able to establish the existing foundation type and building control will need to advise on a different method of construction, if requested by building control engineer a raft or piled foundation, this will be at the client's cost, Portico Design will not be responsible for any extra costs.
11. All walls which have been designed to be removed on plans are to be checked on site by building control inspector/builder for load bearing or non-load bearing; status before purchase of steel's, if non-load bearing then steel's should not be ordered. No refund or claim can be given against Portico Design on the design/materials charged for these steel's.
12. All drainage connections is assumed & is subject for confirmation by the Building Control Inspector, all new foul and surface connections should be approved by thames water before works commence.

OTHER NOTES:
All new proposed roof and wall finishes on this drawing to match existing materials. All new proposed skylights on this drawing to be fitted flush with roof finishes. Where applicable, all new proposed windows on this drawing to be obscure glazing. For a permitted development loft designs the dormer designed on this drawing is set back from the eaves by 20cm as per the permitted development guidelines. The loft is to be designed not to overlook any windows of the neighbouring property unless obscure glazing is to be installed.
An inspection of the underground drainage was not possible on survey. Contractor should check drainage runs and invert levels prior to starting work on site and notify building control of results. ALL DRAINAGE SHOWN IS ASSUMED AND MUST BE VERIFIED BY CONTRACTOR.
TITHE - this drawing has been created by Portico Design ltd for the "client" only, a bound contract has been made between both party's in which a signed contract for creation of works involving person-working hours for this drawing has been made, no refund will be allowed or given once the drawing and any other drawing's relating to this project for whatever reason can be refused by the client, Portico Design ltd will not be responsible for any other person's use of these works, any company, department or person that infringes these rights will be subject to legal compensation.
Party wall notice - Where applicable these terms has agreed on all the above by signing contract between both party's and where applicable the above can be given.
