Subject: RE: Internal Consultation - App ref HGY/2022/2650

Hi James,

I've had a look at the plans for this development of a three-bedroom house on the land adjacent to 2 Alroy Road N4 1EF.

The proposed refuse and recycling storage is at ground level so easily accessible and looks to meet the waste streams we would expect (refuse, food waste and mixed dry recycling). I noticed there is some shrubbery in the plans and so some additional storage space for garden waste collections may be required depending on the quantities produced. This is a subscription service and we provide 240 and 140 litres wheelie bins or 140 litre sacks and weekly collections.

The new house would be eligible for a kerbside service with fortnightly refuse collections and recycling and food waste collected weekly so storage capacity should allow for those frequencies. More details of the waste and recycling services can be found at <https://www.haringey.gov.uk/environment-and-waste/refuse-and-recycling> and I'm happy to advise if there any further queries regarding these.

Kind regards

Ann
