

Objection from Irek C. Flat 29, Brian Court

- Additional information to the comments submitted on the website:

1. There is already one mast approved – we don't need additional one.

This is the view from Brian Court – 2nd building from the main road. I can't even imagine what will be the view from Elmer court. In red the sticking out proposed mast location – I guess it will be even higher. Note that further to the right there is another 20m tall mast already approved. This application must be rejected.

Kind regards,

Irek C.
