Submission: Objection

Comments: I am the owner of Flat 34 in Brian Court in the new build development adjacent to the proposed location. This proposed 5G mast will be a major eye sore and impact the view from my balcony to a level that is completely unacceptable. I do not accept this proposal and I strongly reject this proposed location. Can this not be positioned at the back of the warehouses or behind the new build development so not to ruin the views of London from our balconies? I 100% reject this planning proposal and I will take this matter as far as it needs to go to reject this proposal.
