I would very much like to remove the Laurel hedge completely as there are many issues with it.

Firstly the roots are scattered everywhere. Therefore the roots are causing the following problems:

1) Thames water very recently had to carry out pipe works as there was a water leak by the water meter. The engineers advised that the roots caused the leak. This is costing me financially as we have a water meter and Thames charge me as the meter is running constantly. Please see pics attached.

2) the roots have traveled to immediate neighbours drive way and it may have entered their house. This will cause damage to both properties. Please see pics attached.

3) roots have also damaged my drive way. Please see pics attached.

In regards to street trees, there is a tall tree right next to the laurel also there are many trees in Palmerston road. Please see pics attached.

I hope these are sufficient information. If you need any further information please do not hesitate to contact me.

Kind regards
Amran
