Description of Proposed Works

Please describe the proposed works

The proposal is for the renovation and extension of 29 Lanchester Road. The family have lived at the property for 10 years and are seeking to modernise the home and create a more sustainable home.

At the front of the property the intention is to enhance the contribution that number 29 makes to the appearance of Lanchester Road. To this end the proposal convert the existing garage to a living space, its garage door replaced with a large window. Above this a bay window is proposed at first floor while at roof level the proposal is to replace and improve the existing dormer window. This arrangement relates to the bay windows of the rest of the group of houses to the east. The proposals also include for improvements to the paving and landscape of the front drive and approach to the house.

To the rear the proposal is to replace the existing conservatory extension, extended to the boundary to the west and slightly further to the south than the existing conservatory footprint. The extension will be single storey matching the parapet wall of the extension to the next door property at number 29a. The proposal is for the roof extension to have a meadow grass roof to provide attractive views from the first floor living room.

The proposal is that the existing hipped gable is converted to a half gable (Dutch gable) and the existing ridge line is extended. This allows the existing flat roofed dormer extension at the top floor to be converted to a pitched roof, increasing bedroom space and offering locations for photovoltaic panels. All proposed roof extensions stay below the height of the existing ridge level.

A studio is proposed for the end of the garden, discreetly located behind existing trees. This will act as both a home working location and a guest room.

Internally a new central atrium is opened up with a double height entrance bringing south light deep into the home and allow for natural passive cooling. With the introduction of the window a new snug / occasional guest bedroom is introduced at the ground floor to the front. The first bedroom is enlarged resulting in the loss of one bedroom at this level and to compensate for this a third bedroom is located to the rear on the top floor. A key driver for the design was to reveal views to the ancient Oak tree which is located to the south of the rear garden.

The proposals will involve works to improve the overall fabric including insulating the walls as well as the replacement of the roof and windows.

In addition the proposed works will improve the existing party wall and floor conditions with the neighbouring 29A Lanchester Road.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
