Description of the Proposal

Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

New windows.

Current windows: Have blown and failed, and are not in keeping with the conservation area and aesthetic of the property.

The South facing windows look onto Shepherds Hill (referred to as "Front") are old. One of the Front windows is aluminium double glazed, but it has failed (foggy), and has visible gaps around the frame, outside air easily enters. The other Front windows (in the T shape) are damaged due to water ingress from cracked rendering. Another front window, to the side of the T will (West facing) be replaced to improve the aesthetic value.

There is also an existing upvc window.

The kitchen sash window has failed, it has broken sash cords and does not open. It suffers from water damage.

The North facing windows (referred to as "Back") are old, have failed with water ingress when it rains. Water comes in through the timber windows when it rains.

New windows: All to be double glazed. The proposal is to have Residence 9 casement windows in white wood grain with white butt hinges for those that open. The same number of windows will be present.

- The plan for the Front windows is to replace the ghastly aluminium window with five Residence 9 casement windows.
- The Front "T" shaped window will be replaced with Residence 9 windows, not openable in the top 3, and a casement window for the bottom.
- The adjacent window, West facing while a new upvc will be replaced with Residence 9 to ensure a consistent aesthetic.
- The kitchen sash window will be replaced with a Perfect Crystal Windows upvc sash window which has been sympathetically designed for heritage and conservation areas
- The Back windows will be replaced with Residence 9 casement windows. The same number of windows will be present.
