Subject: FW: Flat A, 31 Lorne Road London N4 (Five Day Notice)

I am satisfied that this case has now been fully investigated and have no objection to the removal of the Plum tree, due to the condition at the base, under a five day notice.

Please take this e- mail as confirmation for permission under a five day notice.

There is a condition to re plant dead, dying and dangerous trees within a Conservation Area.

Condition: Re plant *Prunus* spp. 10- 12cm girth

Regards,

Daniel Monk

Hi Daniel,

I hope you had a good weekend.

Please see a photo of a Plum tree at the above address. It has had some very poor work carried out on it. There is a big split at the back of the trunk behind where I have drawn a red arrow.

The right side of the tree is covered in lots of Ivy and there is a danger of the tree snapping and falling into the neighbours garden. We would like to remove the tree under a five day notice. The tree could be reduced to bellow the split in the main trunk but it would just be a trunk left and nothing else.

Best wishes, Jason
