Subject: RE: Internal Consultation - App ref HGY/2022/2581

Hi James,

We have reviewed this application and are happy with this from a highway perspective. We welcome the change to the doors of the enclosure with them now opening out onto Chesnut Road rather than onto the footway/ cycleway. We would request that the width highlighted on the below is included on the plan for confirmation that this meets highway footway width requirements but we think it does.

We would welcome any treatments to the side elevation that would deter graffiti, fly-tipping and anti-social behaviour along the footway/ cycleway, elements such as lighting, climbers up the wall and/ or public art could be considered to ensure this route feels safe and cared for; however I understand Emily Read is meeting with planning, Housing and the Urban Design officer to discuss this so assume these elements will be picked up by them.

Thank you

Sam
