Site

The young Sycamore tree T1, as marked on the sketch, is situated in the front garden of the property. It is not publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works.

The location is within the Stroud Green Conservation Area. This protects every tree with a diameter at breast height (taken at 1.5m) >75mm.

Proposal

Tree works proposed:

T1: Sycamore (8m): Crown reduce by 1m and crown thin by 20% due to close proximity to building.

Issues

I hold no objections to the proposed tree works.

The bifurcated tree is a poor specimen and low grade. The tree is not worthy of a Tree Preservation Order.

Recommendation

No Objection
