Site

The Cypress trees, as marked on the sketch, are situated in the front communal garden of the property. They are publicly visible.

A site visit was not deemed necessary to determine the appropriateness of the proposed works (20/07/2022 at approximately 11:30am).

The location is within the Stroud Green Conservation that protects every tree with a diameter of >75mm.

Proposal

Tree works proposed:

2x Leylandii Trees - Section fell to ground level.

Issues

I hold no objection to the proposed removal of the two Cypress trees. They have poor morphology, co-dominant stem, score low when using a methodology for their worthiness of a Tree Preservation Order, and unsuitable for their surroundings.

The managing agent are considering planting with a more suitable species.

Recommendation

No Objection
