Dear Sirs,

Re: Town & Country Planning (Trees) Regulation 1999

I am writing on behalf of the Highgate Conservation Area Advisory Committee with comments on the proposed tree works.

1. 11 Milton Ave: (CON/2022/0335): Pollard two limes at rear. These are part of the row of limes originally planted at the rear of all the Miltons houses. Pollarding would be acceptable to ensure that they are preserved.
2. 43 North Rd: (CON/2022/0312): Reduce one magnolia at front. This is a nice tree but there would be no objection to proposed works.
3. Highview, 49 Shepherds Hill: (CON/2022/0299): Fell one leylandii at rear. It looks like the removal of this tree would allow for better development of the mature deciduous tree beside it. No objection.
4. 22 Southwood Lawn Rd: (CON/2022/0303): Reduction works to one large yew at rear. No objection.
5. 18 Stanhope Gdns: (CON/2022/0328): Fell one ivy-covered rowan at front. The tree is alleged to be 80% dead, but appears healthy at the top. Could the tree recover if the ivy were removed? It would be a shame to remove it, as it is the only tree in this front garden. If it must be felled it should be replaced with another suitable tree.

Yours sincerely

Jan Brooker
