Subject: RE: CON/2022/0311 - Flat 3, 11 Christchurch Road N8

Please see attached for labelled photographs, the reasons from the application are as follows –

T1 – Acer (Decayed) – The subject tree has is a poor specimen with structural decay & therefore requires removal to remove risk to the property owners.

T2 – Robinia (Leaning)- The subject tree has an unstable rootplate and an acute lean, it therefore requires removal to remove risk to the property owners.

Kind Regards,

Zoe Hazelden
