CON/2022/0351: 58 Jacksons Lane N6 5SX

T1 - Cabbage Palm- (7m)- cut to ground level.

T2- Holm Oak tree- (8m)- reduce crown by approximately 2m

T2 will grow back after pruning

T1 No reason is given to fell the Cabbage Palm which makes a quirky contribution to the street scene. It would be much missed if felled. Indeed, it sits better with the shrub bed planting than the holm oak and might be better adapted to survive climate change!

We would ask the tree officer to find the time, if he can, to meet with these new owners to negotiate the retention of the tree.

Highgate Neighbourhood Plan

Policy OS2: Protection of Trees and Mature Vegetation

1. Within the conservation areas or when protected by a TPO, specimen, veteran and mature trees and mature vegetation, which have townscape, ecological or amenity value should be retained where possible. If such a loss is shown to be absolutely necessary, new development will be expected to submit proposals for suitable replacements, like for like replacement being supported where appropriate and feasible.
- 2.
