Dear Mr Argles,

Thank you for the six week notice advice following my application, reference no. CON/2022/0331.

Please find enclosed photos, as requested, showing the pine tree that I believe needs to be felled. It is very large and close to the rear of the property at 2.8 metres. It constantly sheds cones and needles which block the gutters and drains.

It is dying and the occupants of both 79 and 81 are very concerned that it could fall towards the properties.

I have contacted the local tree specialists, Harrisons to come and inspect the tree and provide a detailed report.

I am more than happy to plant a new tree further up the garden and have asked Harrisons to advise on a suitable species.

Kind regards,

Mike Duffy
