197_PLN_304 WEST ELEVATION COURTYARD_SUMMARY OF CHANGES

- At first floor (podium) level, changes are proposed to the courtyard facing curtain walling to the entrance lobby.

- A opening window has been added to meet the smoke ventilation requirements. This will be operated by AOV (automatic opening vent) equipment.

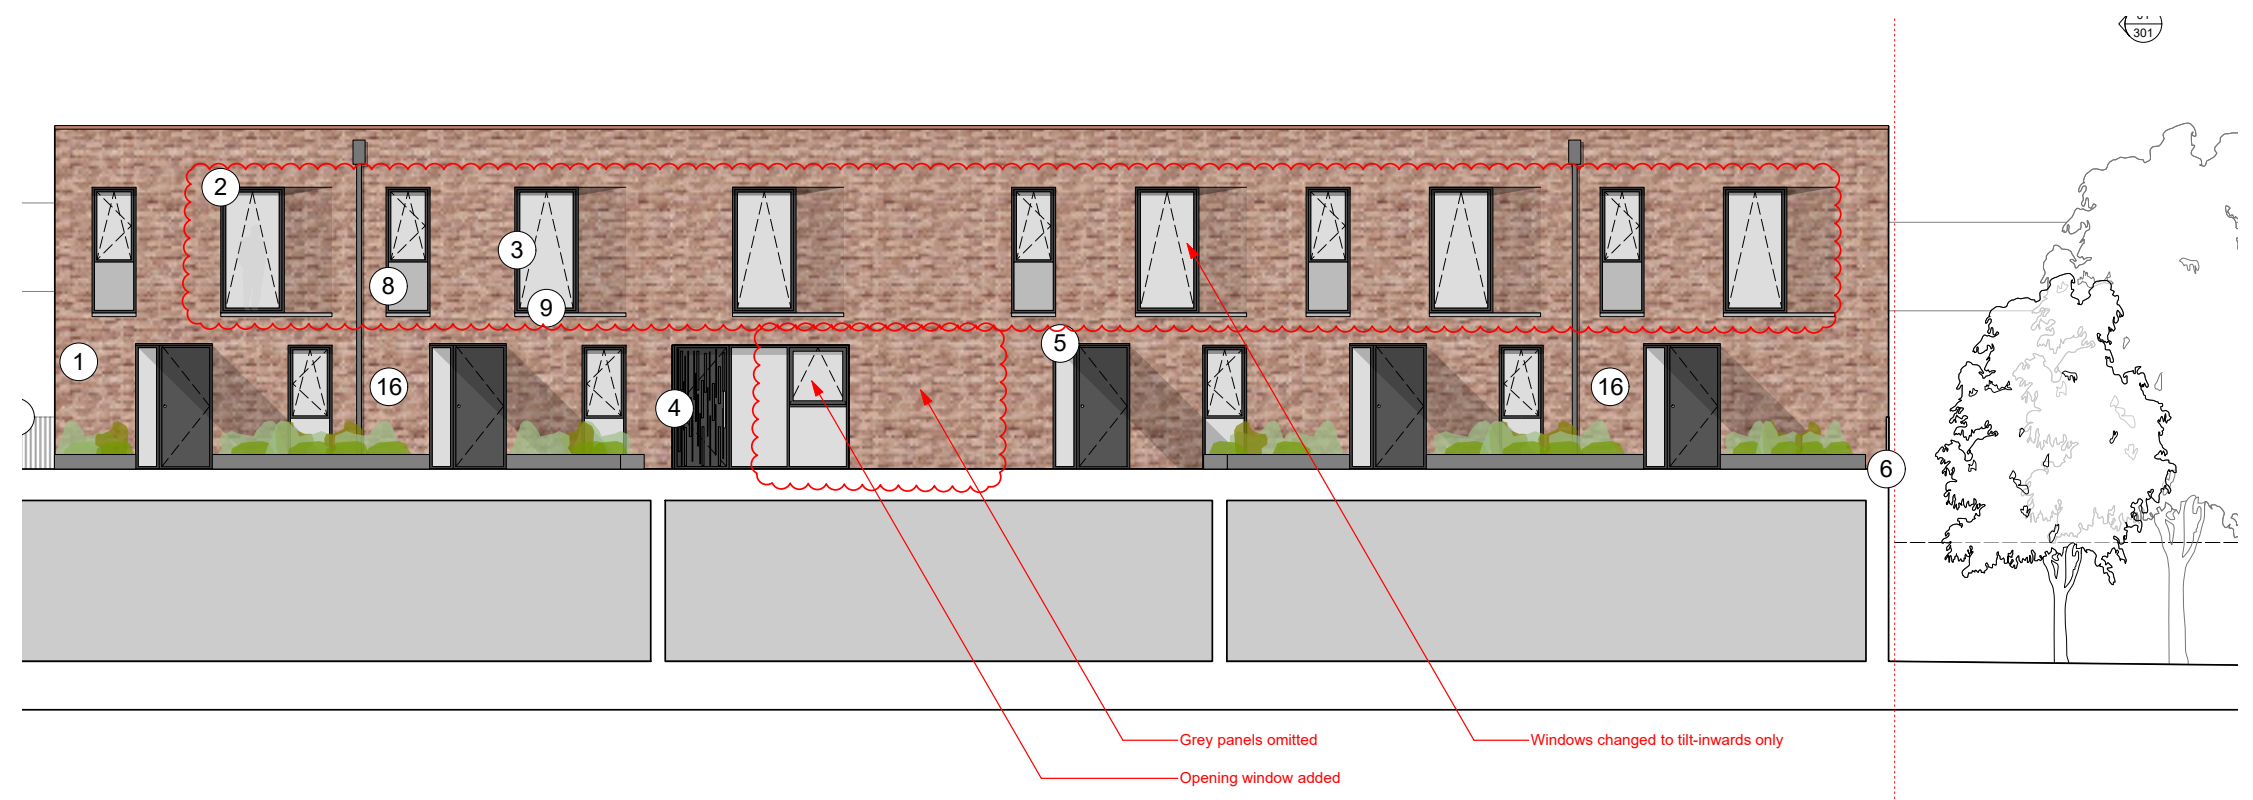

- Two solid grey panels are to be omitted. These are incompatible with the wall build-up required to the passenger lift behind. Brickwork is to replace the area formerly occupied by the grey panels.

- At second floor level, the operation of 6 no. Windows is proposed to change from tilt+turn to tilt-inwards only.
