CON/2022/0435: 110 Priory Gardens N6 5QT

Silver birch (T1) - reduce the height by 3m and shape the crown. Tree of heaven (T2) - reduce 2-3 branches by 2m that are growing across the boundary into the garden of 108 Priory Gardens. This will allow more light into both gardens.

No Objection

CON/2022/0462: 76 Southwood Lane N6 5DY

We would like to reduce the mature London Plane tree by about 2-3m back to previous reduction points. Thinning the crown by about 15-20% and removing any dead wood. This is for the general maintenance and health of the tree. It is also to allow more light in to the garden area.

No Objection
