Submission: Neither

Comments: My neighbour 33 Tynemouth Road who has recently purchased the property and has planned to build a rear dormat extension. I have major concern & objections. Firstly this will no doubt cause a lot of loss of light and overshadowing to my property in particular as we live next door. Visual amenity including overshadowing looking and loss of privacy is another concern. Other reasons such as the extention will appear out if character with the existing property. I believe the design build will most certainly be overshadowing my garden which is a legitimate concern. As this is your property which I only rent from yourselves I am desperately asking you to look into this and my concerns listed above.
