Submission: Not Object

Comments: The proposed extension to number 24 Crescent Rise would bring the back of their property to roughly in line with our conservatory. Our experience with our conservatory suggests that there would be no deleterious impact vis-a-vis visibility or privacy for number 24's immediate neighbours (or ourselves) as a result of this extension. We are not concerned by issues of noise coming from the construction works: we recently lived with 6 months of construction at number 22 when the interior of the entire house was gutted and rebuilt, and for the most part this was bearable. Knowing Mr& Mrs Wandless, who always go above and beyond to alert the neighbours on the terrace to any potential issue of noise or inconvenience of any kind, I have full confidence that they will keep us all informed of any aspects of the work being undertaken that could lead to any mild inconvenience.
