Submission: Objection

Comments: afternoon, i am the owner of one of the apartments located on Academia way which backs up to the pond area and proposed planning site for this build. This means my garden, main and childrens bedrooms currently view the back of the building and the pond. I strongly disagree to this planning proposal and will challenge it wholeheartedly based on the affects i feel it will have on mine and my childrens living area. The sixth form during open hours is already very loud at times. Our windows will look onto this site and potentially students/people will be able to look into our homes. Again i strongly oppose this expansion as a homeowner.
