Submission: Objection  
Comments: We have endured months of building work that is not yet anywhere near completion from the property at number 7 Endymion Rd. We feel that it is unreasonable for these proposed works to take place as well, thereby dramatically increasing the period of time with which we are unreasonably disturbed whilst trying to sleep and relax at home.

The developers are, we assume, the same developers who have put in the this application, as the proposed site of the dwelling is part of the current building site. The developers have not respected the laws around noise coming from building sites and we have put in several complaints to the council about building works being done outside of permitted hours.

We have had to deal with loud construction noise outside of the hours of 8-6 Mon-Sat on all of the below dates:

21st June

3rd August

5th August

17th August

26th August

29th August (work took place all day on this day despite being a bank holiday)

30th August

7th Sept

2nd Oct

13th Oct

14th Oct

The building noise at anti-social and unreasonable times has had a great impact upon our ability to sleep and our lack of sleep is having a huge impact on our ability to be present both professionally and socially.

I am highly concerned about the property developers being granted further planning permission, as they have so far demonstrated that they are not responsible when it comes to the building works they are currently undertaking.

Furthermore the proposed dwelling would greatly reduce the amount of sunlight and privacy that we currently enjoy in our garden.
