Description of the Proposal

Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

The works comprise the repair of a brick pier and strengthening of a masonry wall adjacent that form the boundary between the Southwood Lane local highway, common land owned by the Southwood House Estate Residents Company Limited (SHERCO) and Highstone House (also known as 60a Jacksons Lane). SHERCO commissioned a Consulting Structural and Civil Engineer (Malone Associates) to carry out a visual inspection of this pier and boundary wall early 2022 which established that repairs were required comprising a partial rebuilding of the pier together with strengthening of the masonry wall adjacent through a concealed concrete wall to be hidden within the sloping earth bank of common land owned by SHERCO. All these repair works are proposed to be sensitively carried out to respect the heritage character of the pier and boundary wall given the boundary wall is locally listed and the pier is of a significant age (between 128 to 160 years) and both are within the Highgate Conservation Area (CA). Please refer to the Design and Access and Heritage Statements for further details of these proposed repairs.

Explanation for Proposed Demolition Work

Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

It is necessary to part demolish to enable defects within the masonry Pier to be repaired. With reference to the Structural Survey of the Wall/Pier (comprising a report dated 9th February 2022 Ref: BJM/4242 & Email from the engineer dated 12th July 2022). It is noted that the masonry pier contains significant defects that require repairs as soon as consents are obtained and a Contractor can be appointed to prevent further deterioration leading it to eventually becoming unsafe. The pier is noted to be leaning towards the highway along with the outer 4" of masonry at its lower section being largely de-bonded from the pier behind it. The Consulting Structural and Civil Engineer has established in its design that in order to effectively repair this pier, the upper portion of it is required to be dismantled ('demolished') along with the lower 4" debonded facing course to allow the defects noted above to be corrected. It is intended to rebuild the pier with the dismantled existing bricks, replacing any that are damaged and unusable with matching bricks from a reclaim yard. Please refer to the Design and Access Statement for further details about this.

Existing Use

Please describe the current use of the site

The site comprises a brick pier and a section of a brick boundary wall fronting directly onto the footpath of Southwood Lane highway, together with a sloping earth bank to the rear of the wall that is a landscaped area of common land owned by the Southwood House Estate Residents Company Limited (SHERCO). To the rear of the wall there is also a service road providing access for nos. 86 to 112 Southwood Lane. Highstone house resides to the south of the site and the brick pier is situated along the boundary between Highstone House and SHERCO's common land.

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:

Boundary treatments (e.g. fences, walls)

Existing materials and finishes:

Existing Masonry Pier (age circa 128 to 160 years). Comprising grey weathered soft red masonry bricks (imperial sizes) along with a lime mortar finish. Existing Masonry wall comprising London Yellow stock bricks with lime mortar finish and a brick on edge over a tile creasing course.

Proposed materials and finishes:

Existing grey weathered soft red masonry bricks to be reused and supplemented by weathered masonry bricks (imperial sizes) from the London Reclaimed Brick Merchants weathered multi-stock range or equal (where required) together with a pointed lime mortar finish to match existing. Refer to Design and Access Statement for more details. Existing Masonry wall comprising London Yellow stock bricks with lime mortar finish and a brick on edge over a tile creasing course will be retained, this wall will be repointed on both sides with lime mortar to match. A reinforced concrete wall will be tied into this wall to the rear and hidden within the existing sloping earth bank of Common Land owned by SHERCO. Please refer to the design and access statement and drawings for further details.
